

WE MAKE CONNECTORS *BETTER*

SPEED

GSN's Chinese and German SPEED DEVELOPING TEAM provides you with an optimized product solution incl. 2D & 3D data and feasibility evaluation within 3 working days. The final design is finished within 1 week. We built stamping and injection molds within 5 weeks. Customers get samples 2 weeks later and a PPAP report after another week.

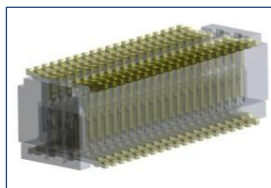

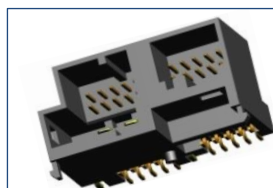

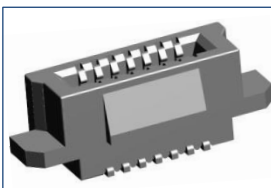

QUICK INFO

Optimised solutions at market-leading development speed.

COSTS

The global set-up of GSN with Asian and European service points provides legal reliability, ideal logistics solutions and a safe local communication; all reducing your indirect costs.

GSN optimizes your products with full focus on lowest total costs of ownership. Your final GSN product is often an optimised version of the original idea, including the GSN know-how and working to your full satisfaction at lowest total costs.

QUICK INFO

In >50% of projects, the local GSN team reduces costs for our customers by improving the design of existing products.

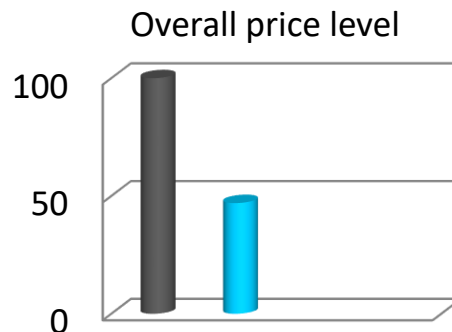

PRICE

Due to GSN's high grade of automation, the low staff turnover rate, the project management set-up in China and Europe and our pure focus on efficiency, we generate for custom connectors the best price level in the market.

Even more, you may choose between an ExChina price and a Local-Service-Price, and all options in between. You only pay for what you really need.

Global Top 5
Connector Companies

GSN Electronics
Group of Companies
